**Commitment of the Iceland University of Education
to
The European Charter for Researchers
and
*The Code of Conduct for the Recruitment of Researchers***

The Iceland University of Education welcomes and supports the initiative of the European Commission and the recommendations given in the European Charter for Researchers and Code of Conduct for the Recruitment of Researchers.

The European Charter for Researchers and Code of Conduct for the Recruitment of Researchers are a benchmark and orientation guide which will second our endeavours to maintain and foster high quality research and education and provide a fair and inspiring research environment for our teachers and researchers.

We assure The European Commission that many of the issues included in the Charter and the Code of Conduct are already being implemented at the Iceland University of Education and others are being developed as part of a policy that will enable an increasingly vibrant research environment at our university.

The above mentioned Charter and Code of Conduct will be a solid beacon and inspiration in that work.

for The Iceland University of Education

on behalf of Ólafur Proppé rektor

Svanhildur Kaaber manager, rector's office

Dean of Research

Dr. Gretar L. Marinossón professor
